

HIGHBOND

HYCHEM

BONDING FOREVER, BREAKING NEVER

WE ARE FOR YOU..

Hot Melt Adhesive

Jelly Glue

Water Based Adhesive For Book Binding

Ridig Box Corner Tape

Coating And Uv Varnish

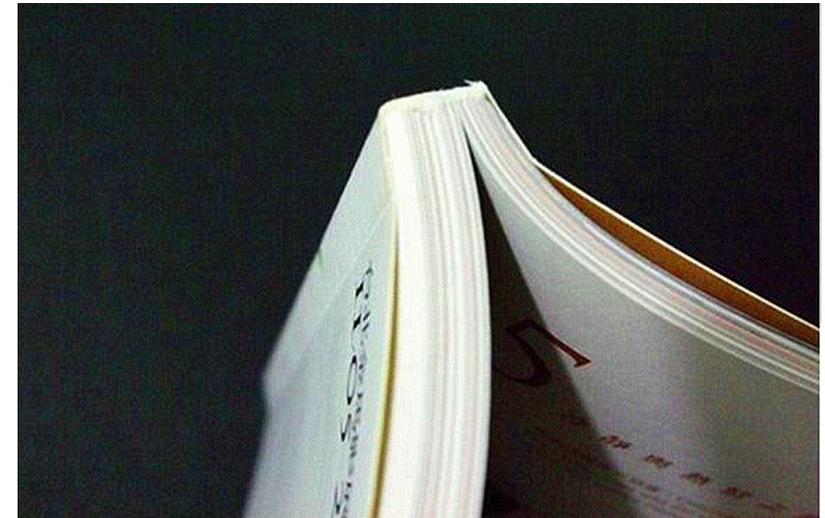

HOT MELT ADHESIVE FOR BOOK BINDING

Applications :

Used for bonding different weights of simili papers, coated art papers, and recycled papers, create superior bonding strengths and perfect bonding quality, which is high durability even after the books are kept being turned for so many times and being stored in environments with different temperatures.

Performance Characteristics :

No stringing and odor, good flexibility and temperature resistance, suitable for difficult-to-bond substrates. Very competitive price

HOT MELT ADHESIVE FOR LABELS AND COURIER BAGS

Applications :

Mainly used in packing list envelope

Performance Characteristics :

Good performance in high and low temperature, non-spill, wrinkle-free, excellent initial tack

HOT MELT ADHESIVE FOR FOOTWEAR

Applications :

Shoe Fabric Lamination/Automotive Felt-Felt Application

Performance Characteristics :

Lamination of fabrics to EVA Foam & other fabrics for industries such as shoe upper & Insole etc.

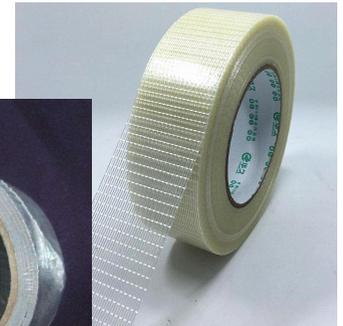

HOT MELT ADEHSIVE FOR TAPE

Applications :

For tapes like fiber glass tape, EVA foam tape, foil tape, masking tape, etc

Performance Characteristics :

Wide adhesive range, strong initial tack, versatile adhesive adaptability excellent initial tack, versatile adhesive adaptability

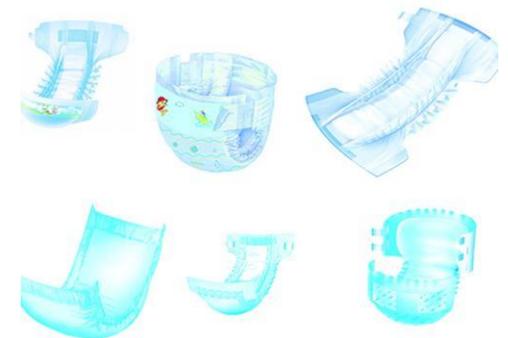

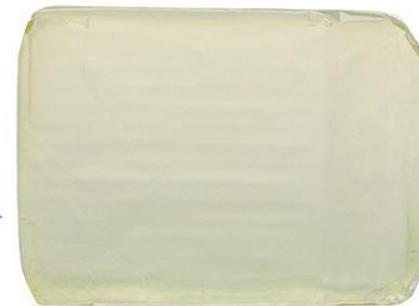

HOT MELT ADHESIVE FOR HYGIENE PRODUCT

Applications :

Back adhesive for sanitary napkins, structural adhesive for sanitary napkins, structural adhesive for diapers, elastic thread adhesive for diapers.

Performance Characteristics :

Stable product performance, moderate viscosity, excellent fluidity, suitable for low temperature operations.

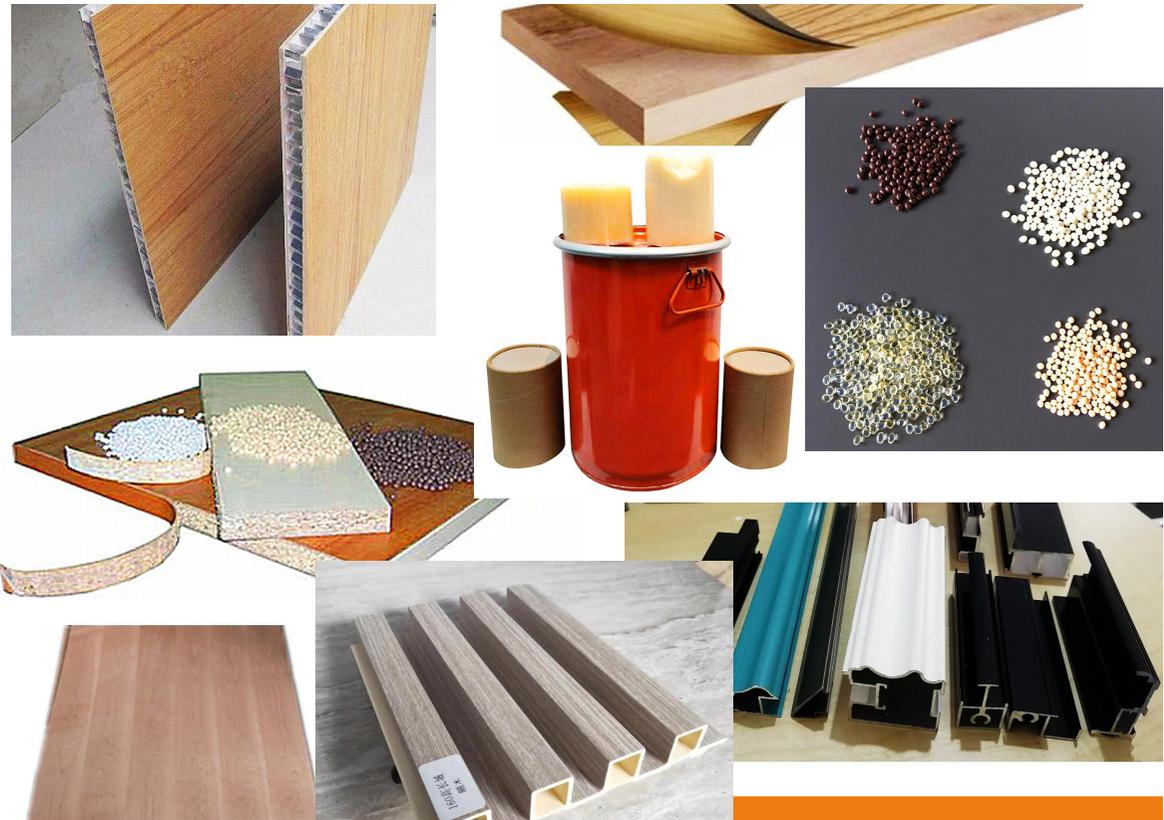

HOT MELT ADHESIVE FOR WOOD WORKING

Applications :

Used for edge banding, PVC/MDF lamination, UPVC/aluminum lamination, PVC/CPL lamination, PVC/PVC sheet lamination, paper/MDF lamination honeycomb making, profile wrapping, wall paper, veneer jointing, flooring, etc

Performance Characteristics :

Good thermal tackiness, sufficient open time, wetting strength, and heat resistance. Won't get bonded materials re-opening during storage and transportation, low odour, no smoke, high standard, good wetting strength, high bonding strength, good temperature resistance, very competitive price

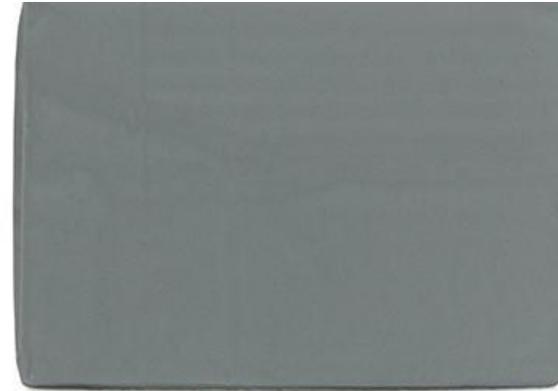

HOT MELT ADEHSIVE FOR AUTOMOTIVE INTERIORS

Applications :

Used for regular front headlights, suitable for smaller lamp base adhesive grooves, suitable for non-clasp front lights, and general signal lights.

Performance Characteristics :

Strong adhesion, high efficiency, low cost, safety, and environmental protection.

JELLY GLUE FOR RIGID BOX AND CASE MAKING

Applications :

(For kolbus, Harouf, memory, mega Bound type M/c's)

Performance Characteristics :

Animal jelly Glue for hard Case / rigid Box

RIGID BOX CORNER TAPE

Applications :

Rigid box making, gift box making, card box making

Performance Characteristics :

Suitable for different machine speed, biodegradability (natural product), low corrugation of processed papers, fast attraction, suitability even for difficult products, fast drying, increased elasticity and freedom from tension, remains elastic and tension-free when drying, and with very competitive price

HOT MELT GLUE STICK

Applications :

Used for packaging, handcrafts, toys, artificial flowers, PCB board, carton box, electronics, etc

Performance Characteristics :

High adhesion, good temperature resistance, easy to operate, fast drying, low ordour, low glue consumption, very competitive price

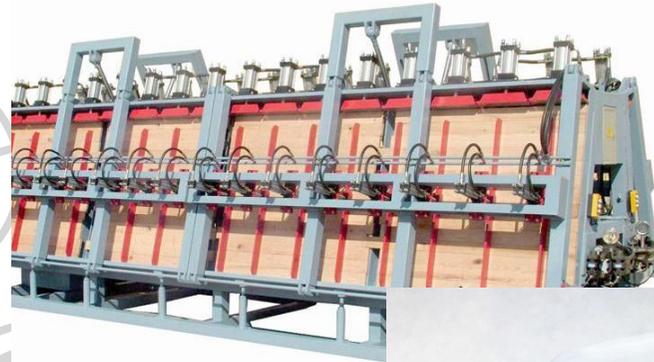

WATER BASED ADHESIVE FOR WOOD WORKING

Applications :

Used for furniture assembling, solid wood splice jointing, panel thickening, PVC lamination, vacuum membrane pressing, gypsum board, etc

Performance Characteristics :

non toxic, clean running, no s atellites, no particles, good surface performance, easy to clean, good temperature resistance, high bonding performance is achieved with low adhesive consumption

HEAT SEAL BLISTER VARNISH

Applications :

Heat seal blister coating are water based, and are used used around the globe in applications including blister, plastic film, and aluminum foil packaging.

Performance Characteristics :

Exhibits good gloss and good sealing characteristis with pvc blisters.

**HEAT SEAL
BLISTER
PACKAGING**

HOTMELT ADHESIVE FOR PET BOTTLE LABELLING

Applications :

Hot Melt adhesives for bottle labelling has low viscosity which can be operated at low temperature and reduce label deformation. It has a permanent tack that can bond label with less volume for various kind of plastic films and bottles such as PP, PET, HPPE. We also have adhesives for straw attachment on tetra pack. It gives bonding to polyester to paper board.

Performance Characteristics :

Suitable for low Speed M/c's
AND high-speed M/c's. It has good bonding with PP, BOPP, PE Lables to PET Bottles for Beverages and Mineral water

WATER REPELLENT COATING /OGR COATING

Applications :

Barrier coatings for paper and paper-board substrates are ideal for products protecting against water leakage and vapor, solvents, oils, fatty acids, and other substances. Our barrier coatings portfolio improves the performance and functionality of paper packaging, better protecting the product inside.

Performance Characteristics :

Creates moisture barrier to protect packed material

ANTI -SKID CARPET BACK CAOTING AND PALLETIZATION

Applications :

Anti-Skid Palletisation

Performance Characteristics :

Film of adhesive has got anti- skid properties. No String Formation during usage.

HOT MELT ADHESIVE FOR MATTRESSES

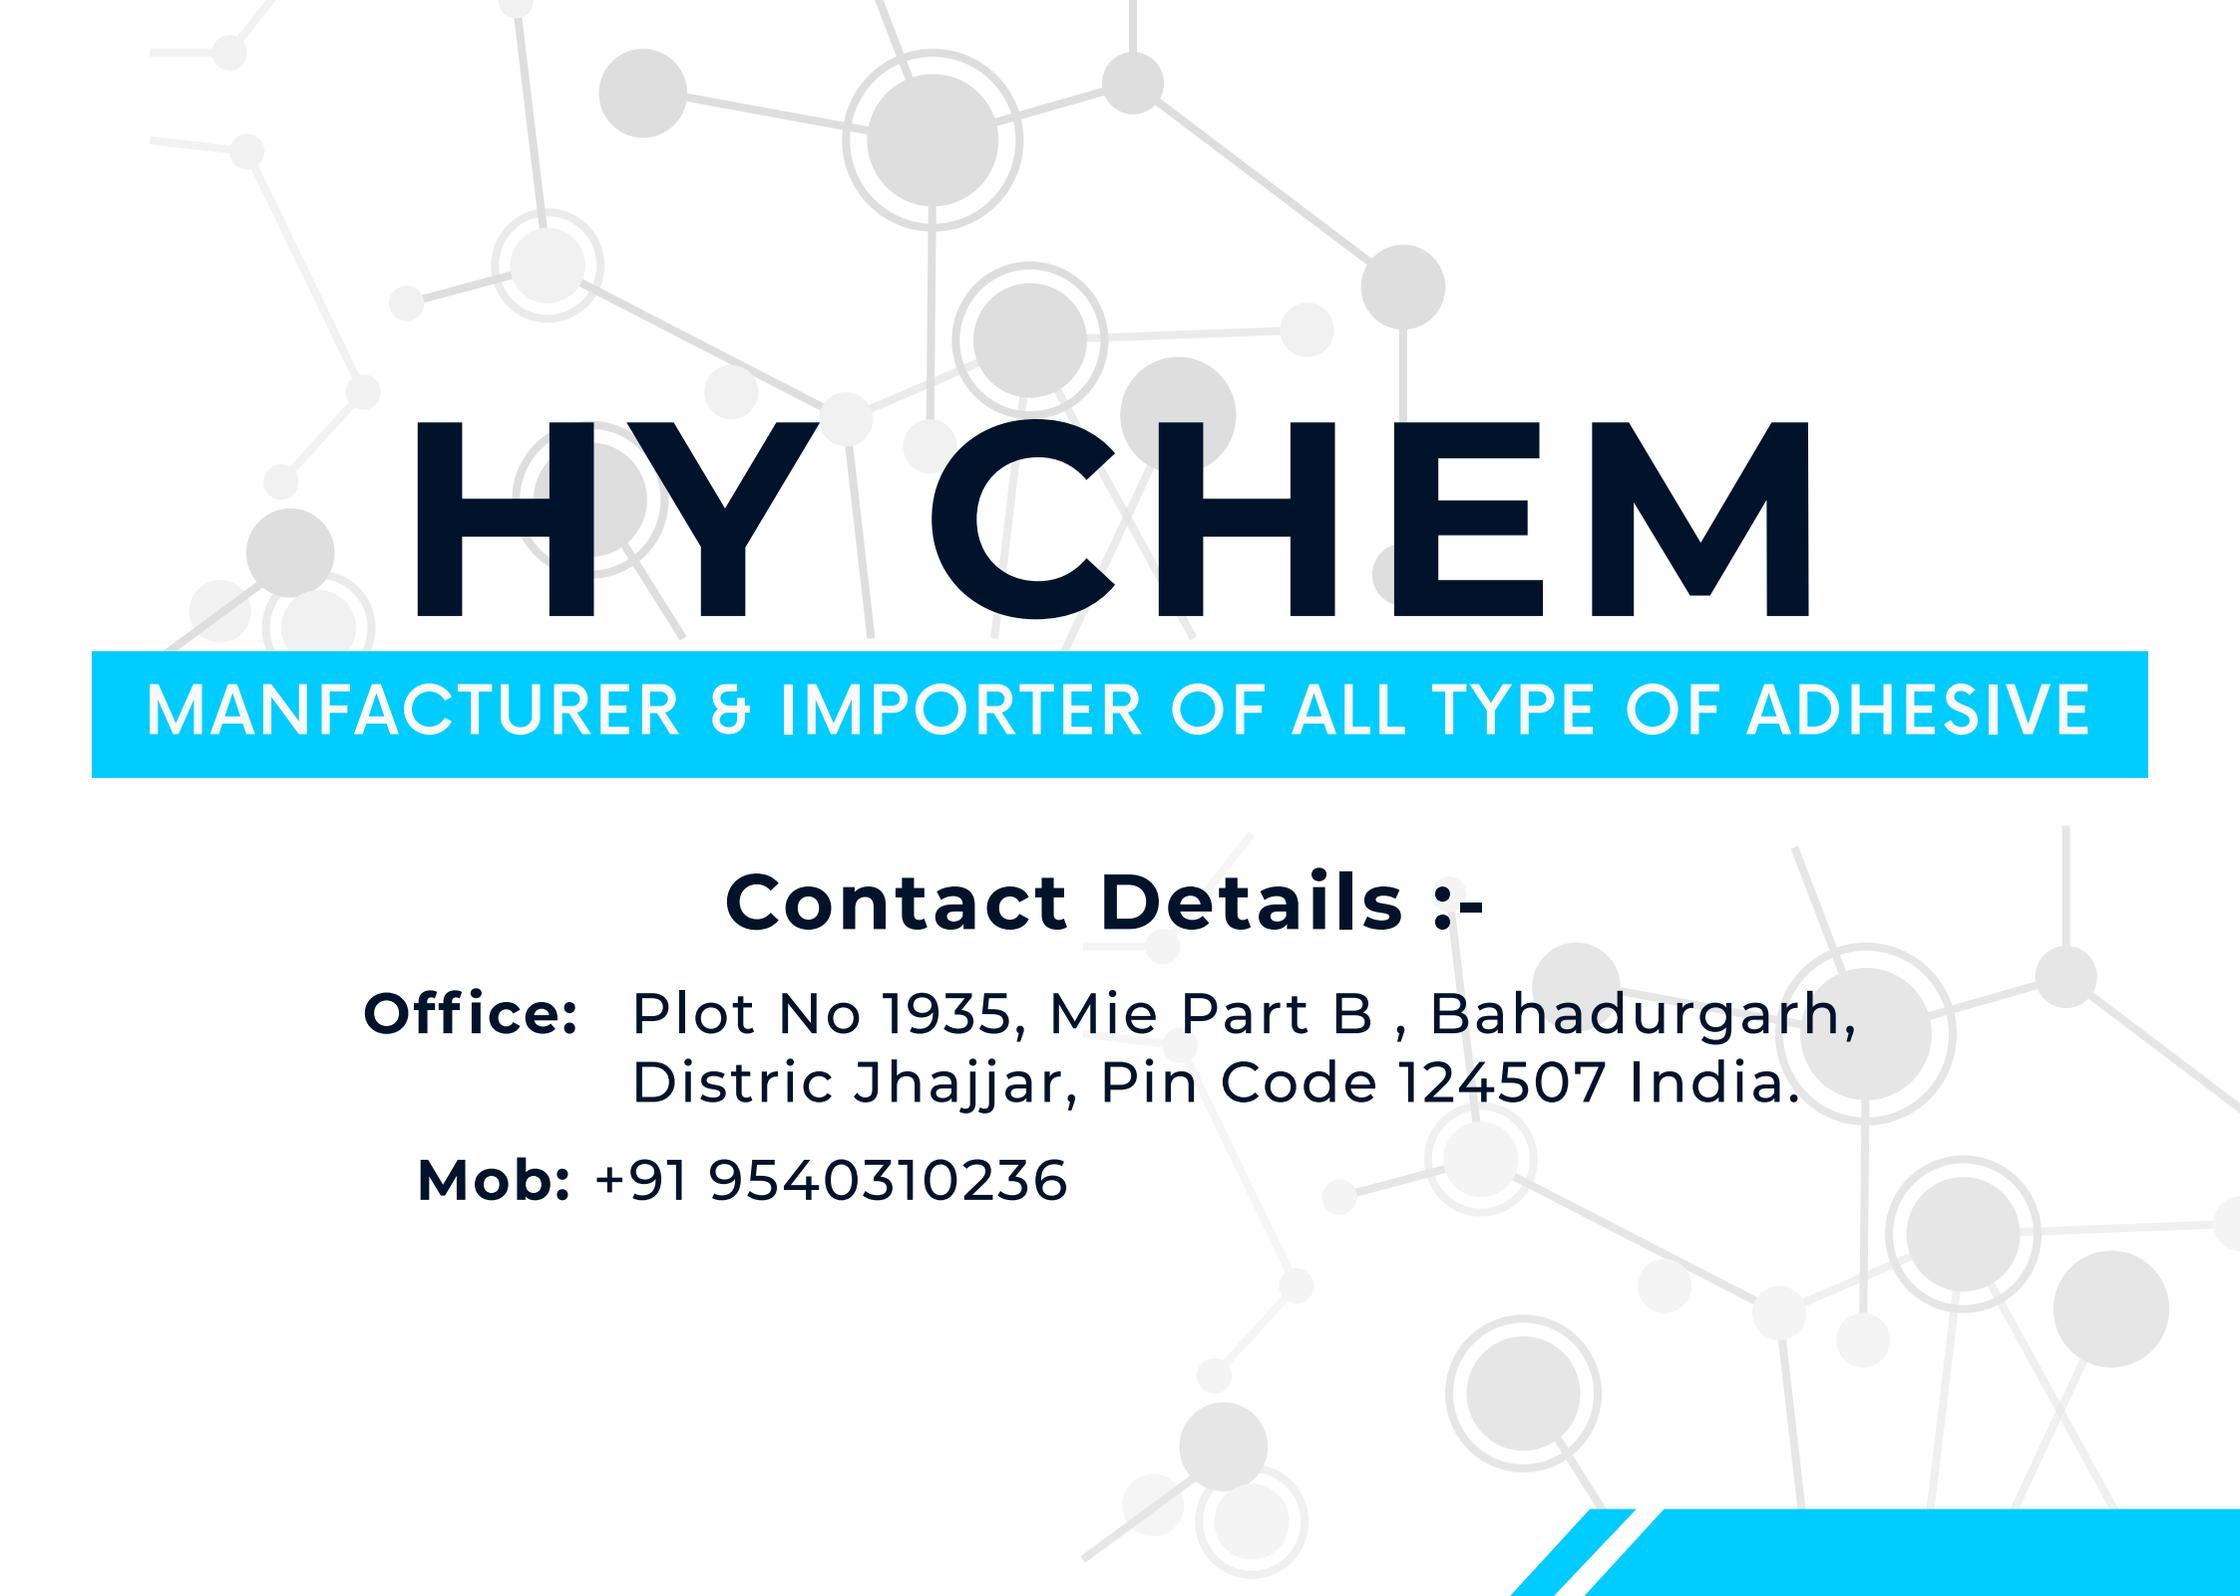

Applications :

WPP Bag Side Sealing
Mattresses Spring Pocket - Pocket Bonding

Performance Characteristics :

Most suitable for side sealing of Hdpe/pp woven/bopp bags & non -woven bags and pocket to pocket Bonding for nozzle application in mattress.

A background of a molecular structure with various sized grey circles connected by thin grey lines, set against a white background.

HYCHEM

MANUFACTURER & IMPORTER OF ALL TYPE OF ADHESIVE

Contact Details :-

Office: Plot No 1935, Mie Part B , Bahadurgarh,
Distric Jhajjar, Pin Code 124507 India.

Mob: +91 9540310236
